

DIRECT ACTION®

PRODUCT LINE

2018

In use for more than a year with one of the world's most demanding units -
DIRECT ACTION gear is now available to YOU.

DIRECT ACTION® is a project born from combining great design and manufacturing capabilities with an up-close-and-personal understanding of the specific end-user needs of elite operations forces.

This combination has created an approach of the individual-as-a-system that is open and flexible with all necessary options, yet remains streamlined and avoids overburdening. Each part of the system interfaces with the other components including: weapons, load bearing equipment, backpacks, jackets, combat uniforms and even camouflage patterns and colors - each of these is a part of the whole, and every component is critical to mission success.

When creating DIRECT ACTION® every detail was rigorously thought through this system-based perspective - no random choices, no compromises, no "same-old-stuff" designs, no shying away from new technology - and all based on the first-hand, real-world experience of elite special operations veterans participating in every step of the process.

Proudly made in Poland from high-quality, genuine materials and hardware, using advanced proprietary laminate and utilizing patented designs.

DIRECT ACTION® - Experience Based Gear

GO LOUD!

This catalog contains our DIRECT ACTION® base product line. More new products will be introduced and rolled out over the course of the year ahead.

PLATE CARRIERS

A Slick, low visibility, low profile, yet durable plate carrier designed to be used either under your jacket or as an outer ballistic vest. This is a light platform, with limited modularity. It features a fully elastic cummerbund with two carbine mags pouches and one radio pocket on each side, as well as a front flap with three elastic pouches for carbine/smg/pistol mags. The slick construction is perfect for CQB use, with almost no loose parts that can be snagged within the environment. Large Velcro® panel on the front and back for unit ID patches. The HELLCAT® is perfect whenever you want to run a lower profile, but also want to have the availability to have some more firepower at hand.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D and 210D nylon fabric.
- ▲ Slick flap with three elastic pouches for carbine/smg/pistol magazines.
- ▲ Elastic cummerbund with carbine and radio pockets.
- ▲ Front flap attached directly or via chest rig buckles.
- ▲ Low profile drag handle.
- ▲ Compatible with all SPITFIRE® flaps and wings.
- ▲ Large velcro panel on front and back.
- ▲ PTT attachment points on front.

Weight: 525 g - size M / 1.15 lbs
 Product Id: PC-HLCT-CD5
 Sizes: M/L/XL
 Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

The CORSAIR® low profile plate carrier is a lightweight, slick and easily concealable ballistic vest. This simple plate carrier was designed to be worn under your clothing without any additional Velcro®, flaps, or any modularity. The CORSAIR® features a fully elastic cummerbund with inner carbine/pistol mag pockets. It's made entirely of elastic nylon fabric to tightly fit different types of plates, without any unnecessary bulky stitching. This enables it to be concealed under your jacket or even a shirt. Made only in solid colors to blend even more with your everyday clothing - perfect for undercover or covert operations requiring hard ballistic protection (III, III+ to IV standalone - *ballistic protection not included).

Specs:

- ▲ Made of stretch nylon fabric to securely accommodate ballistic protection and the user's body. It's everything you need and none of what you don't.
- ▲ Fully elastic cummerbund with carbine/pistol mag pockets.
- ▲ No additional Velcro® panels.
- ▲ Slick outer layer, without any bulky stitching.
- ▲ Made only in solid colors to easier blend with everyday clothing for effective concealment.

Weight: 275 g - size M / 0.60 lbs
 Product Id: PC-CRSR-NLN
 Sizes: M/L/XL
 Colors: AGR, SGR, BLK

SPITFIRE® plate carrier

Taking its name from a famous WWII fighter, our SPITFIRE® plate carrier is a streamlined and dynamic platform. Lightweight and non-restricting, this plate carrier is one of the lightest in its class. But at the same time it's a durable platform, and is unique in its modularity - converting to a cut-away rig in just a few simple steps.

Specs:

- ▲ Proprietary laser-cut laminate, Cordura® 5000 and softsell construction.
- ▲ Optional accessory cutaway system.
- ▲ Front flap attached directly or via chest rig buckles in variants: PALS, kangaroo type.
- ▲ Configurable with no flap, wrap around style.
- ▲ Interchangeable cummerbund - side armor compatible.
- ▲ Back panel zipper attachment system compatible with Crye Precision AVS™ standard.
- ▲ Low profile reinforced drag handle.

SPITFIRE® allows for quick donning, doffing and medical access thanks to Hypalon pullers. The carrier's construction also allows for easy and secure comm wires routing through the plate bag and cummerbund.

Specs:

- ▲ Chest Rig attachment system compatible with Mayflower® / Velocity Systems standard.
- ▲ Front plate only configuration using the chest rig interface.
- ▲ Optional pads on front, back and shoulders area for improved airflow.
- ▲ Zippered chest admin pocket.
- ▲ PTT and comms wires / antenna routing attachment points.
- ▲ Accessory armor package for heavy configuration in development.

Weight: 620 g - size M / 1,37 lbs
Product Id: PC-SPTF-CD5
Sizes: M/L/XL
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SPITFIRE® triple rifle magazine flap

SPITFIRE® triple rifle magazine flap is additional flap for SPITFIRE® that can be used instead of the standard one. Thanks to our adjustable rifle pouches sewn directly on it's surface, it allows carry three rifle magazines for AR, AK or SR platform. Elastic top handles made of anti-slip Hypalon secures the magazines. The front surface is covered with laser cutted MOLLE/PALS modular system. The flap mounts to the dedicated flap ports on the SPITFIRE® or to the chest rig interface via attached buckles for QD configurations.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Adjustable, triple rifle magazine pouch for AR, AK or SR mags.
- ▲ Front surface covered with laser cutted MOLLE/PALS system.

Weight: 152 g / 0.34 lbs
Product Id: PC-R3FP-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

SPITFIRE® MOLLE flap

Standard MOLLE flap for SPITFIRE® available as a separate product. It allows to easily prepare many configurations of the flaps and use them for different mission types, without the need of changing all the pouches every time. The flap mounts to the dedicated flap ports on the SPITFIRE® or to the chest rig interface via attached buckles for QD configurations.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Covered with laser cutted modular MOLLE/PALS system.

Weight: 60 g / 0.13 lbs
Product Id: PC-MLFP-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

SPITFIRE® SMG flap

The SPITFIRE® SMG (sub-machinegun) flap is an additional piece of gear that can be used in place of the standard SPITFIRE® flap (aka "shingle"). Thanks to the adjustable pouches sewn directly onto its surface, it enables you to carry four standard SMG mags. Elastic top pullers made of anti-slip Hypalon® secures the magazines. Front surface is covered with laser cut MOLLE/PALS modular system. Additional columns of MOLLE/PALS on each side of the pouch allows mounting of additional pouches for pistol mags, TQ etc. The flap can be attached directly to dedicated flap ports on the SPITFIRE® or via the chest rig interface, using attached buckles.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Adjustable, quad SMG magazine pouch.
- ▲ Pouch surface covered with laser cut MOLLE/PALS system.
- ▲ Additional MOLLE/PALS column on each side of the pouch.

Weight: 150 g / 0.33 lbs
Product Id: PC-SMFP-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

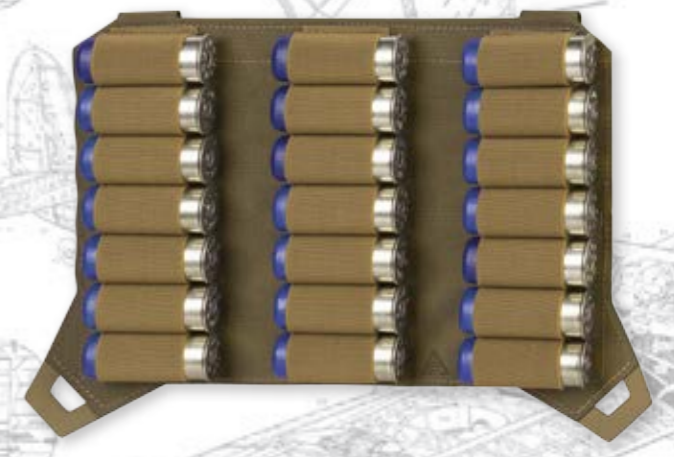

SPITFIRE® shotgun shell flap

Shotgun shell flap is additional flap for SPITFIRE® that can be used instead of the standard one. Elastic loops sewn in three columns onto the surface are designed to carry standard 12GA shotgun shells (the whole flap allows carrying up to 21 shells). Each column can be easily used for different type of ammo, without the risk of mixing them, like it the standard pouch. The flap mounts to the dedicated flap ports on the SPITFIRE® or to the chest rig interface via attached buckles for QD configurations.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Allows to carry up to 21 standard 12GA shotgun shells in three columns.

Weight: 108 g / 0.22 lbs
Product Id: PC-SSFP-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

SPITFIRE® cutaway system

This parachute - type retrofit system allows for immediate release and field reassemble without cutaway elements. Created for with waterborne ops in mind, it also allows to instantly assess, treat and put the armor back on the wounded teammate.

Specs:

- ▲ Compatible with all SPITFIRE® plate carriers - available as a separate kit.
- ▲ Can be assembled one side only if comms are routed on the other and would not release anyway.

Weight: 125 g - size M / 0,27 lbs
Product Id: PC-SPQR-PEN
Sizes: According to SPITFIRE
Colors: According to SPITFIRE

SPITFIRE® assault panel

Assault panel for the SPITFIRE® plate carrier is the first of the planned series of back panels meant for the plate carrier. The design allows rapid reconfiguration by attaching to pre-arranged rear panel zippers of either the SPITFIRE® plate carrier or the HALIFAX® backpack. The assault panel pocket layout was made to fit in the CQB role. Top portion has three Velcro®-closed pouches to contain various types of flash-bangs or spare magazines. Large, zipper-closed universal cargo pouch is mounted beneath them. Its lined with soft, velour material so it can be used for carrying scratch sensitive objects, like eyepro or NV goggles. Underneath the whole back of the panel there is a flat pocket for a hydration bladder or breaching tools secured with Velcro®.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D and 210 nylon fabric
- ▲ Integral SPITFIRE® plate carrier back-panel's zipper-mounted.
- ▲ Has three stun grenade / spare magazines pouches.
- ▲ Large velour-lined cargo pouch.
- ▲ Velcro®-closed full-height of the panel flat pocket underneath the external pockets.

Weight: 292 g / 0,64 lbs
Product Id: PL-SPAP-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SPITFIRE® comfort pad set

Comfort pad set for the SPITFIRE® plate carrier was designed to add comfort, improve air flow and moisture management while wearing the armor. The kit comprises six pads: two worn under front plate, two under rear plate and two for the shoulder straps.

Specs:

- ▲ Multilayer construction of closed-cell foam, mesh and softshell fabric.
- ▲ Easily attachable with dedicated Velcro® patches on the inner side of the plate carrier.
- ▲ Sizes matching the plate carrier.
- ▲ Six piece set.

Weight: 116 g / 0,26 lbs
Product Id: PC-SPCP-NLN
Sizes: According to SPITFIRE®
Colors: AGR, UGR

SPITFIRE® breacher panel

2018
NEW!
GEAR

The SPITFIRE® breacher panel is the second piece in the series of back panels designated for our top of the line, fully-customizable plate carrier. The design allows rapid reconfiguration for any mission by attaching a pre-fabricated panel to the rear of the SPITFIRE® plate carrier or onto the HALIFAX® backpack. The breacher panel pouch layout is the result of our experience and end-user feedback of the assault panel. The top portion has four buckle-closed pouches for flashbangs (or any standard NFDD's) and/or smoke grenades, with MOLLE/PALS columns on its sides. A large, zippered pocket is mounted at the bottom part of the panel. The large pouch is lined with soft, velour fabric and can be used to carry scratch sensitive objects, like eye protection, NVGs, binos, etc. Between the flashbang pouches and the utility pouch there is one additional, horizontal MOLLE/PALS column designed for mounting a breaching charge pouch. The whole panel is a large, flat pocket for a hydration bladder or breaching tools, with the possibility of carrying longer tools, like a sledge hammer, through the Velcro®-closed bottom of the panel. This panel is specifically designed, yet remains incredibly versatile.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D and 210D nylon fabric
- ▲ Mounts to SPITFIRE® plate carrier back-panel zippers, and also the HALIFAX® backpack.
- ▲ Four flashbang pouches, with additional MOLLE/PALS columns on sides.
- ▲ Velour lined cargo pouch.
- ▲ Horizontal MOLLE/PALS column for a breaching charge pouch.
- ▲ Velcro®-closed flat pocket for hydration bladder or breaching tools.

Weight: 410 g / 0.90 lbs
Product Id: PL-SPBP-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

SPITFIRE® molle wing

MOLLE wing was developed to work with the SPITFIRE® plate carrier side ports. It enables attachment of spare magazine pouches or other auxiliary equipment right next to the plate, with cummerbund wrapping over it, to save attachment surface on the plate carrier itself. If mounted it extends the attachment area by 2x3 (2 columns x 3 rows).

Specs:

- ▲ Made of proprietary laminate.
- ▲ Has two columns of three rows of MOLLE/PALS.
- ▲ The panel is ambidextrous: can be attached on either side of the carrier.

Weight: 18 g / 0.04 lbs
Product Id: PL-SPMW-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SPITFIRE® comms wing

Comms wing was developed to work with the SPITFIRE® plate carrier side ports. It enables attachment of a personal radio right next to the plate, with cummerbund wrapping over it, to save mounting space on the plate carrier. Height-adjustable and with expanding sides to accommodate various radio models, with elasticized loop closure to prevent losing the contents.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Height- and width-adjustable to fit most radios.
- ▲ The panel is ambidextrous: can be attached on either side of the carrier.

Weight: 50 g / 0.11 lbs
Product Id: PL-SPCW-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SPITFIRE® side sapi mount

Two-part interface enabling the stabile carry of the side protective plates in a SPITFIRE® plate carrier. Fully universal, conforms the most popular side plate sizes of 6x6" and 6x8".

Specs:

- ▲ Made of proprietary laminate.
- ▲ One size fits all SPITFIRE® plate carrier sizes.
- ▲ Easily attachable to the cummerbund.
- ▲ Takes either 6x6" or 6x8" plates.
- ▲ Does not collide with optional soft ballistic panels worn inside the cummerbund.

Weight: 40 g / 0.09 lbs
Product Id: PC-SPSM-CD5
Colors: AGR, UGR, SGR, CBR, BLK,
MCM, PGZ, PBL

UNIVERSAL MOLLE PANELS

Weight: 22 g / 0.048 lbs
Product Id: PL-UMPL-CD5
Colors: AGR, UGR, SRG, CBR, BLK, MCM, PGZ, PBL

Small modular panels dedicated to the SPITFIRE® plate carrier or the MOSQUITO® modular sleeve. Dedicated design allows stabile attachment under the main flap. Allows pouches to be mounted directly under the carrier, below the plate. Three width sizes available: for 2, 3 or 4 columns of MOLLE/PALS slots.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Can be attached under the plate pocket flap of SPITFIRE® plate carrier.
- ▲ Three widths available - for 2, 3, 4 MOLLE/PALS columns.
- ▲ Also fitting the MOSQUITO® modular sleeve.

Weight: 12 g / 0.026 lbs
Product Id: PL-UMPS-CD5
Colors: AGR, UGR, SRG, CBR,
BLK, MCM, PGZ, PBL

Weight: 16 g / 0.035 lbs
Product Id: PL-UMPM-CD5
Colors: AGR, UGR, SRG, CBR,
BLK, MCM, PGZ, PBL

CHEST RIGS

THUNDERBOLT® compact chest rig

The THUNDERBOLT® compact chest rig is a combination of DIRECT ACTION's® two most appreciated chest rigs with additional feedback from our end-users. This small, yet versatile rig has most of the pouches from the popular HURRICANE® hybrid chest rig applied to a platform even smaller than the TIGER MOTH®. With fixed pouches for magazines, first aid kit and other essentials, it gives you the capability of carrying everything as close to your body as possible. Horizontal MOLLE/PALS row under the pouch section can be used for mounting additional utility pouches too. Fully compatible with our chest rig interface, it can be attached to the SPITFIRE® and HELLCAT® plate carriers creating a unique rapid deployment platform, unique to DIRECT ACTION® Gear.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D with softshell interior.
- ▲ Integrated, adjustable pouches to hold four AR/AK/SR magazines.
- ▲ Two buckle-closed adjustable pouches on sides that can be used as utility pouches or a first aid kit pouch after combining it with our MED pouch, vertically mounted.
- ▲ Zippered utility pocket for small items.
- ▲ Two Velcro®-closed, adjustable pistol magazine pouches with detachable flap.
- ▲ Low profile, adjustable harness with PTT slots.
- ▲ Flat inner pocket in chest panel.
- ▲ Horizontal MOLLE/PALS row under pouch section for mounting additional pockets.
- ▲ Body armor interface via buckles compatible with SPITFIRE® and HELLCAT® plate carriers.

Weight: 600 g / 1,32 lbs
Product Id: CR-TDBT-CD5
Colors: MCM, PGZ, PBL, CBR, AGR,
UGR, SGR, BLK

HURRICANE® hybrid chest rig

HURRICANE® is a split front, full size hybrid chest rig. Integral mag pouches provide maximum weight reduction, while MOLLE/PALS on sides gives you additional modularity. Tight split front design allows comfortable stand-alone use, while keeping your mags close when attached to plate carrier.

Specs:

- ▲ Proprietary laminate, Cordura® 500D and 210D nylon fabric.
- ▲ Integral magazine pouches for up to 8xAR, 4xAK and 4xSR magazines.
- ▲ Fixed external pouches: two utility pouches with buckles, one zippered pouch and one with Velcro® closed flap.
- ▲ Flat inner pockets in each chest panel.
- ▲ Adjustable harness with MOLLE/PALS or PTT slots and reinforced drag handle.
- ▲ Reinforced drag handle incorporated into harness design.
- ▲ Body armor interface via buckles.
- ▲ MOLLE/PALS on sides for medical/utility pouches.

Weight: 737 g / 1,62 lbs
Product Id: CR-HRCN-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TEMPEST® chest rig

Stripped down and ready for action, our TEMPEST® chest rig also offers increased modularity for full user-customization. The tight split front design allows for comfortable use in stand-alone mode - and keeps your magazines close when attached to a plate carrier.

Specs:

- ▲ Proprietary laminate, Cordura® 500D and softshell construction.
- ▲ Integrated, adjustable magazine pouches, will fit: 8xAR type, 4xAK type or 4xSR type magazines.
- ▲ PALS slots on the magazine pouches and sides, horizontal PALS slots under ammunition pouches for tourniquets, pistol magazine pouches etc..
- ▲ Body armor interface via buckles.
- ▲ Low profile, adjustable harness with slots for PTT and additional accessories attachment.
- ▲ Reinforced drag handle incorporated into harness design.
- ▲ Flat inner pockets in each chest panel.
- ▲ Comms wires / antenna routing.

Weight: 530 g / 1,17 lbs
Product Id: CR-TMPT-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TIGER MOTH® chest rig

The smallest chest rig in our line, the TIGER MOTH® combines extensive customization possibilities with a compact size - for when low-profile / no bulk is a serious requirement.

Specs:

- ▲ Proprietary laminate, Cordura® 500D and softshell construction.
- ▲ Integrated, adjustable magazine pouches, will fit: 8 x AR type, 4 x AK type or 4 x SR type magazines.
- ▲ PALS platforms on the sides for radio, medical or utility pockets, horizontal PALS slots under ammunition pouches for tourniquets, pistol magazine pouches etc.
- ▲ Body armor interface via buckles.
- ▲ Low profile, adjustable harness with slots for PTT and additional accessories attachment.
- ▲ Flat inner pocket in chest panel.
- ▲ Comms wires / antenna routing

Weight: 409 g / 0.89 lbs
Product Id: CR-TGRM-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SNIPER PANEL®

Additional front panel for HURRICANE® and TEMPEST® chest rigs, attachable directly to front zipper. It moves the chest rig sides out of the way, leaving only a flat front surface for a comfortable prone shooting position. Top buckles allow for fast reattachment of the shoulder straps into a more comfortable position. The panel itself has a flat zippered front pocket.

Specs:

- ▲ 500D Cordura® and mesh construction.
- ▲ Quick-attachable to the HURRICANE® or TEMPEST® main zipper.
- ▲ Allows for shoulder strap repositioning.
- ▲ Flat zippered front pocket

Weight: 100 g / 0.22 lbs
Product Id: CR-SNPL-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TYPHOON® chest rig

TYPHOON®, most recent addition to our chest rig lineup, offers the largest attachment surface while still keeping the rig compact. Made of laminate, its laser-cut slots serve as a MOLLE/PALS compatible attachment interface. Due to its design, the user can employ either the main panel alone, add an extra chest panel or by means of an included attachment piece, carry the front ballistic plate inside the chest rig. Large mounting surface makes the TYPHOON® an ideal choice for greenside operations.

Specs:

- ▲ Made of proprietary laminate and durable mesh.
- ▲ Four internal pockets closed with small Velcro® pads.
- ▲ Foldable chest panel.
- ▲ Interface included to stabilize the ballistic plate in the front panel.
- ▲ Flat X-suspenders lined with mesh for extra ventilation.
- ▲ Suspenders have cut-outs for additional attachment options

Weight: 390 g / 0.86 lbs
Product Id: CR-TPHN-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

COMFORT PAD set

Chest rig comfort pad set was designed to provide additional comfort and enhance air circulation. It consists of two pads attached directly to the suspenders. The set fits all DIRECT ACTION® chest rigs.

Specs:

- ▲ Multilayer construction of foam, mesh and softshell fabric.
- ▲ Easily attachable.
- ▲ Set of two.
- ▲ Fits all DIRECT ACTION® chest rigs.

Weight: 35 g / 0.08 lbs
Product Id: CR-CRCP-NLN
Colors: AGR, UGR

BELTS

The FIREFLY® low vis belt sleeve is designed either as an addition to the HELLCAT® plate carrier or as a stand-alone item. Made especially as a slick platform for undercover or covert use, it can also be carried as an outer belt sleeve in places, where the risk of snagging must be as low as possible, e.g. in very tight places like busses, trains etc. Stiffened, yet very slim, it's designated to be mounted on any 45 mm belt. The FIREFLY® has fixed, elastic pouches for pistol and carbine mags on the left side, a radio pouch on right (can also be used for additional carbine magazine), a first aid kit pocket on the back, and a TQ pouch on right. Additionally, on the right side of the sleeve, there is a possibility to attach an OWB (outside the waistband) pistol holster, either via popular paddle-style, or belt loops. The FIREFLY® is compatible with our inner belt thanks to its Velcro® velour lining. The profiled construction makes the belt comfortable even during prolonged wear in vehicles.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Stiffened, slim, low profile construction.
- ▲ Velcro® velour lining for compatibility with DIRECT ACTION® Inner Belt.
- ▲ Fixed, elastic pouches for carbine/smg mags, pistol mags, radio, TQ and first aid kit.
- ▲ Compatible with OWB holsters with paddle/belt loop mounting option.
- ▲ Fits any 45 mm belt.

Weight: 305 g - size M / 0.67 lbs
 Product Id: BT-FRFL-CD5
 Sizes: M/L/XL
 Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

As sleek as its famous namesake, our MUSTANG® tapered gun belt is lightweight, slim and rigid. It can be worn alone as a trouser belt, or as a duty belt in combination with the matching inner belt, or together with the MOSQUITO® modular belt sleeve.

Specs:

- ▲ Made of heavy duty tubular webbing, proprietary laminate, lined with Velcro® loop.
- ▲ Bartack reinforced in stress points.
- ▲ Stiffened to carry weight of holsters and magazine pouches.
- ▲ Secured with certified AustriAlpin Cobra® buckle.
- ▲ Anchor point for carabiner / lanyard / tether in front portion of the belt compatible with FROG® buckle or shackles.

Weight: 200 g - size M / 0.45 lbs
 Product Id: BT-MSTG-CD5
 Sizes: M/L/XL
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MUSTANG® inner belt

Our inner belt works as a stabilizer for the MUSTANG®, WARHAWK® and MOSQUITO® belts. As it attaches to the inner loop panels of those belts, it prevents ride-up during dynamic movement - or when drawing a pistol from a holster. With this belt set-up there's no need to use suspenders or a drop leg panel in order to achieve a secure pistol draw.

Specs:

- ▲ Made of proprietary laminate and Velcro® hook.
- ▲ Flat, featherlight accessory to keep your pants & equipment belt where you'd expect them to be.
- ▲ Thin profile of the trouser belt effectively eliminates well known "buckle over buckle" discomfort.

Weight: 60 g - size M / 0.13 lbs
 Product Id: BT-INBT-CD5
 Sizes: M/L/XL
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

WARHAWK® rescue/gun belt

WARHAWK® is our answer to the customers' inquiries about the 45 mm wide buckled belt. It is made entirely of a rigid webbing, and fastens with industry-recognized AustriAlpin Cobra® Buckle. Can be worn as stand-alone item, with MUSTANG® inner belt or as inner belt for the MOSQUITO® modular belt sleeve.

Specs:

- ▲ Made of rigid, thickly woven 45 mm wide webbing,
- ▲ Lined with Velcro® loop,
- ▲ Partly stiffened for more stable carrying of pouches, holsters etc.
- ▲ Reinforced seams in stress points,
- ▲ Fastens with AustriAlpin Cobra® Buckle
- ▲ Reinforced and stiffened anchor point to attach carbine hooks, lanyards or FROG® Buckle

Weight: 220 g - size M / 0,48 lbs
Product Id: BT-WRHK-NLW
Sizes: M/L/XL
Colors: AGR, UGR, CBR, BLK, MCM

MOSQUITO® hip panels

MOSQUITO® hip panels allow you to mount pouches lower on sides of your MOSQUITO® modular belt sleeve or any other gun belt like WARHAWK® or MUSTANG®. When mounted on MOSQUITO® modular belt sleeve, they make longer pouches more stable.

Specs:

- ▲ Compatible with MOSQUITO® modular belt sleeve,
- ▲ Can be used with any gun belt up to 2" wide,
- ▲ Stiffened in order to prevent folding during use,
- ▲ Large hip panel is compatible with any pistol holster featuring Safariland® 3-hole mounting system

Hip Panel S

Weight: 54 g / 0,12 lbs
Product Id: PL-MQPS-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

Hip Panel L

Weight: 65 g / 0,14 lbs
Product Id: PL-MQPL-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MOSQUITO® modular belt sleeve

Our MOSQUITO® modular belt sleeve is an extremely versatile platform - just like de Havilland's 'Wooden Wonder' from WWII. It works well in both low-profile and heavy-load configurations. It is compatible with accessory hip and drop leg panels

Specs:

- ▲ Made of proprietary laminate, stiffened and Velcro® loop lined,
- ▲ Designed to work as a belt sleeve for MUSTANG® and WARHAWK® rescue / gun belt, will fit most standard rescue belts,
- ▲ Laser cut PALS slots interchanging with vertical openings on the sides allow for user-preferred equipment attachment options for holster, blade etc.,
- ▲ Additional stability can be achieved by using the MOSQUITO® modular belt sleeve together with the MUSTANG® inner belt,
- ▲ Can be used with low profile Y-style or H-style suspenders.

Weight: 250 g - size M / 0,55 lbs
Product Id: BT-MQMS-CD5
Size: M / L / XL
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MOSQUITO® drop leg panel MK II

Drop leg panel for MOSQUITO® modular belt sleeve is a high-rise thigh rig that allows you to mount pouches directly below the MOSQUITO® modular belt sleeve, therefore you save mounting space on the belt. Drop leg panel can also be used as a mounting platform for any pistol holster featuring Safariland® 3-hole mounting system. Can be used on left and right side.

Specs:

- ▲ Compatible with MOSQUITO® modular belt sleeve,
- ▲ Can be used with any gun belt up to 2" wide
- ▲ Compatible with any pistol holster featuring Safariland® 3-hole mounting system,
- ▲ Stiffened in order to prevent folding during use,
- ▲ Thigh strap with elastic part for stability and comfort,
- ▲ Can be used on left and right side.

Weight: 136 g / 0,3 lbs
Product Id: PL-LGPN-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MOSQUITO® Y-harness

Suspenders for MOSQUITO® modular belt sleeve makes your equipment more stable and easy to carry, thanks to redistributing part of the load on your shoulders. Low profile design makes them comfortable for use under any armor carriers.

Specs:

- ▲ Compatible with MOSQUITO® modular belt sleeve.
- ▲ Low profile allows the use of suspenders under body armor.
- ▲ PTT mounting points on front.
- ▲ Elastic part on back for more comfort.
- ▲ Makes carried belt more stable thanks to 4 attachment points.

Weight: 84 g / 0.18 lbs
Product Id: HS-MQYH-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MOSQUITO® H-harness

An advanced suspender harness for the MOSQUITO® modular sleeve that was designed with greenside operations in mind. Profiled for better comfort and fully adjustable to fit any body shape. Mesh lined on the back for better air circulation. Low profile drag handle integrated with belt-to-harness connecting webbing enables better force distribution while evacuating casualty. The suspenders have numerous slots to enhance modularity and provide routing for PTTs, radio wires and antennas etc.

Specs:

- ▲ Made of proprietary laminate and durable construction mesh.
- ▲ Numerous slots for modularity.
- ▲ Fully length-adjustable.
- ▲ Drag handle integrated with suspenders.
- ▲ Chest strap for better stability.
- ▲ Routing channels for comms.

Weight: 215 g / 0.47 lbs
Product Id: HS-MQHH-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

AMMO POUCHES

LOW PROFILE pistol pouch

The LOW PROFILE pistol pouch is a key product in our LOW PROFILE kit. Thanks to this pouch you can carry two pistol magazines concealed under your clothing without the risk of either visual detection or losing them during rapid movements. The mostly elastic, partially rigid construction provides a fast draw of the magazines, while the integrated pull tabs enables you to easily re-holster them. The pouch always stays very flat, both with or without magazines, in order to prevent any snagging while operating in close quarters. Our new Velcro® based system for belt mounting gives you the availability to attach or remove the pouch from your belt as needed.

Specs:

- ▲ Elastic, semi rigid construction made of proprietary laminate and elastic webbing.
- ▲ Holds most double stack pistol magazines for 9mm/.40/.45.
- ▲ Mounts directly to any 45 mm belt; can be mounted or removed even with your belt on.
- ▲ Flat profile to help avoid any snagging while working in close quarters.

Weight: 40 g / 0,09 lbs
Product Id: PO-PTLP-CD5
Colors: CBR, AGR, UGR, SGR, BLK

LOW PROFILE carbine pouch

The LOW PROFILE carbine pouch is another key product in our LOW PROFILE pouch kit. With this pouch, you are able to carry a carbine magazine concealed under your clothing while significantly mitigating visual detection. The mostly elastic, partially rigid construction provides a fast draw of the magazines, while the integrated pull tab assists with reholstering. The pouch rides high on your belt, so it won't be visible from under your jacket, providing comfort even during prolonged periods of time seated in a vehicle. The pouch is always flat, with or without magazines, to prevent any snagging while operating in close quarters. Our new Velcro® based system for belt mounting gives you the availability to attach or remove the pouch from your belt as needed. When you're in need of more firepower than your pistol can provide, the LOW PROFILE carbine pouch is the best choice for you.

Specs:

- ▲ Elastic, semi rigid construction made of proprietary laminate and elastic webbing.
- ▲ Even though designed mainly for the AR platform, the pouch will fit most carbine mags.
- ▲ Mounts directly to any 45 mm belt; can be attached or removed even with your belt on.
- ▲ Low profile to help avoid any snagging while working in close quarters.
- ▲ High ride to stay concealed and provide comfort.

Weight: 40 g / 0,09 lbs
Product Id: PO-CBLP-CD5
Colors: CBR, AGR, UGR, SGR, BLK

SPEED RELOAD pouch rifle

0.4210

Open top rifle magazine pouch, designed for speed reloads but with secure magazine carry at the same time. The special internal material, combined with a limited-size top opening and tension-adjusting elastic cord, prevents the magazine from falling out if it gets snagged.

Specs:

- ▲ Proprietary laminate, semi-rigid construction.
- ▲ Adjustable, holds single AR/AK/SR type magazine.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ PALS slots on the outside for easy stacking.
- ▲ Can be fitted with additional bungee retention if needed (not available).

0.2980

Weight: 80 g / 0,17 lbs
Product Id: PO-RFSR-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SPEED RELOAD pouch smg, pistol

Just like our rifle pouch, our pistol / SMG pouch is designed for speed reloads but with secure magazine carry at the same time. The special internal material, combined with a limited-size top opening and tension-adjusting elastic cord, prevents the magazine from falling out if it gets snagged.

Specs:

- ▲ Proprietary laminate, semi-rigid construction.
- ▲ Adjustable, holds most double stack pistol magazines for 9 mm / .40 / .45 as well as 4.6 mm and 5.7 mm mags.
- ▲ Both PALS and direct gun belt mounting compatible.

Weight: 57 g / 0,12 lbs
Product Id: PO-SMSR-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

Weight: 40 g / 0,09 lbs
Product Id: PO-PTSR-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TAC RELOAD pouch AR-15

Dedicated double AR-style rifle magazine pouch. Box flap completely protect the magazines from the elements. Buckle closure guarantees easy and quiet opening. Integrated internal adjustment system with elastic cord allows for quick adjustment of pouch volume - from double to single magazine use.

Specs:

- ▲ Made of proprietary laminate and Cordura®.
- ▲ Attaches either through PALS or via bellloops.
- ▲ Detachable box flap, buckle closure.
- ▲ Holds 1 or 2 AR-style rifle magazines.

Weight: 100 g / 0,22 lbs
 Product Id: PO-ARTC-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TAC RELOAD pouch pistol MK II

TAC Reload pistol MK II is a development of our previous TAC Reload pistol pouch. The main change was to integrate our elastic cord adjustment system, enabling custom adjustment of the magazine release force, as well as reconfiguration to single-stack magazines.

Specs:

- ▲ Made of proprietary laminate and Cordura®.
- ▲ Attaches either through PALS or via bellloops.
- ▲ Elastic cord-adjustable, fits most single- and double-stack magazines of 9 mm/.40/.45
- ▲ Flap Velcro®-closed, with Hypalon® puller.

Weight: 34 g / 0,07 lbs
 Product Id: PO-PTT2-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SAW 46/48 pouch

Dedicated belt-box pouch for M249-based machine guns. Partially stiffened design sized to take either 5.56 mm (M249/Mk46) or 7.62 mm (Mk48) Light Machine Gun belt-box. Straight flap secured with a buckle guarantees safe carry and easy access to the contents. Insert included to convert into a six AR-style rifle magazine pouch. Modular panels at the bottom and sides allow for attaching additional gear directly to the pouch.

Specs:

- ▲ Partly stiffened construction, made of proprietary laminate and 500D Cordura®.
- ▲ Dedicated to the 5.56 mm (M249/Mk46) or 7.62 mm (Mk48).
- ▲ Detachable insert for six AR-style magazines.
- ▲ MOLLE/PALS panels on bottom and sides.
- ▲ Attaches either through PALS or via bellloops.

Weight: 200 g / 0,44 lbs
 Product Id: PO-SAWP-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TAC RELOAD pouch rifle

Designed to fit all popular types of magazines (both AK and AR), our TAC Reload pouch is a truly universal rifle mag pouch. Thanks to its built-in adjustable elastic cord system, the amount of tension on the magazines can be adjusted so that a partially empty pouch hold your remaining magazines / magazine just as securely as when the pouch is fully loaded.

Specs:

- ▲ Proprietary laminate and 500D Cordura® construction.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Secured with adjustable Velcro® flap with Hypalon® puller.
- ▲ Holds up to 3 AR / 2 AK / 2 SR magazines.
- ▲ Can be adjusted to carry sniper rifle mags (.338, .308).

Weight: 85 g / 0,19 lbs
 Product Id: PO-RFTC-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

FLASHBANG pouch

A secure pouch for NICO, P1 and US type flashbang grenades. Can double as a pouch for 40 mm grenades, especially longer rounds (smoke, illum).

Specs:

- ▲ Proprietary laminate construction,
- ▲ Both PALS and direct gun belt mounting compatible,
- ▲ Elastic sides, internal safety lever sheath positioning the grenade.

Weight: 28 g / 0.06 lbs
 Product Id: PO-FLBG-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

FRAG GRENADE pouch

New model of our Fragmentation grenade pouch. The most important difference is substituting a classic 25 mm buckle with smaller 20 mm side release buckle. This pouch also allows for use with the UZRGM-fused grenades (e.g. RG-42, F-1, RDG-5), with upper part of the fuse protruding through a dedicated hole in the flap.

Specs:

- ▲ Made of proprietary laminate,
- ▲ Elastic sides to fit most grenades,
- ▲ Would fit both M67-style and older (F-1, RG-42) grenades,
- ▲ Flap closed with 20 mm buckle,
- ▲ Attaches either through PALS or via bellloops,
- ▲ Internal fuse lever protection system.

Weight: 50 g / 0.11 lbs
 Product Id: PO-FRG2-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

FLASHBANG pouch open

Open-top variant of the flashbang pouch. Tighter elastic sides secure the flashbang, while adjustable height allows to fit most popular stun grenades types. Ideal when quick and quiet drawing of a flashbang is required. May also carry 40 mm grenade rounds, including the longer ones, e.g. Illumination flares.

Specs:

- ▲ Made of proprietary laminate,
- ▲ Attaches either through PALS or via bellloops,
- ▲ Tight, elastic body secures the grenade without the need for flap,
- ▲ Adjustable height,
- ▲ Hypalon pull handle for easier inserting of the grenade,
- ▲ Dedicated design secures the fuze lever.

Weight: 35 g / 0.07 lbs
 Product Id: PO-FLBO-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SMOKE GRENADE pouch

Pouch sized to hold a standard US-type smoke grenade. Closed with a simple flap, guarantees safe transport and easy, silent access.

Specs:

- ▲ Made of proprietary laminate and 500D Cordura®,
- ▲ Closed with a buckled flap,
- ▲ Sized to fit standard US-style smoke grenades,
- ▲ Internal fuse lever protection system,
- ▲ Attaches either through PALS or via bellloops.

Weight: 54 g / 0.12 lbs
 Product Id: PO-SMKE-CD5
 Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

A close-up, profile view of a soldier wearing a helmet, safety glasses, and a communication microphone. The soldier is wearing a camouflage uniform. On his right shoulder, there are several utility pouches and cables. The background shows a rocky, desert-like landscape under a clear blue sky. A semi-transparent grey banner is overlaid on the top right of the image, containing the text "UTILITY POUCHES" in white, bold, sans-serif capital letters.

UTILITY POUCHES

LOW PROFILE DUMP pouch

Weight: 60 g / 0.13 lbs
Product Id: PO-DPLP-NLN
Colors: CBR, AGR, UGR, SGR, BLK

If you don't want to stash your empty mags in your jacket pocket or you need a place to put some items that you find during a search - we've got you covered. Our LOW PROFILE Dump pouch is a flat, compact pocket, that you can easily attach to your belt and deploy in the blink of an eye. The bag will easily fit a few carbine or pistol mags, or even a full size pistol. Stiffened, rubberized handle provides you the ease of use, even without looking at the pouch. Our new Velcro® based system for belt mounting gives you the availability to attach on or remove the pouch from your belt as needed.

Specs:

- ▲ Elastic, semi rigid outer layer made of proprietary laminate and elastic webbing,
- ▲ Soft, thin and packable bag, with a stiffened, rubberized handle,
- ▲ Mounts directly to any 45 mm belt; can be attached or removed even with your belt on,
- ▲ Low profile to help avoid any snagging while working in close quarters.

LOW PROFILE BATON pouch

The LOW PROFILE Baton pouch is yet another pouch in our LOW PROFILE Kit. Thanks to our pouch you are able to carry a standard sized baton under your clothing without the risk of detection or it being lost during rapid movements. The mostly elastic, partially rigid construction provides fast a draw of the baton, while the integrated pull tabs make for easy re-holstering. The small hole in the bottom of the pouch allows rapid re-holstering with the baton partially or fully extended. The pouch is always very flat, both with and without a baton in it - in total it has almost the same thickness as the item you are carrying. Our new, Velcro® based system for belt mounting, gives you the availability to attach or remove the pouch from your belt as needed.

Specs:

- ▲ Elastic, semi rigid construction made of proprietary laminate and elastic webbing,
- ▲ Fits the most popular batons,
- ▲ Mounted directly to any 45 mm belt; can be mounted or removed even with your belt on,
- ▲ Flat profile to help avoid any snagging while working in close quarters.

Weight: 25 g / 0.05 lbs
Product Id: PO-BTLP-CD5
Colors: CBR, AGR, UGR, SGR, BLK

LOW PROFILE RADIO pouch

Weight: 40 g / 0.09 lbs
Product Id: PO-RDLP-CD5
Colors: CBR, AGR, UGR, SGR, BLK

The LOW PROFILE Radio pouch is yet another product designed for undercover or covert operations. The partially elastic design enables a good fit for many different models of individual communication devices. The Velcro® based system fits belts up to 45 mm wide and allows attachment or removal of the pouch as needed. The pouch rides high on your belt to keep it concealed and not visually detectable from under your jacket, yet it provides comfort even during prolonged use in a vehicle.

Specs:

- ▲ Elastic, semi rigid outer layer made of proprietary laminate and elastic webbing,
- ▲ Mounts directly to any 45 mm belt; can be mounted or removed even with your belt on,
- ▲ Low profile to help avoid any snagging while working in close quarters,
- ▲ High ride to stay concealed and provide comfort.

LOW PROFILE CUFF pouch

The LOW PROFILE Cuff pouch allows you to carry standard handcuffs/mechanical restraints. The elastic, partially stiffened construction, closed with snap button provides rapid deployment of the cuffs with only one pull; at the same time keeping them secured and in place when not needed. Tight construction reduces the noise made by the cuff chain. There is also an additional, small pocket on the inner layer for cuff's key. Our new, Velcro® based system for belt mounting, gives you the availability to attach or remove the pouch from your belt as needed.

Specs:

- ▲ Elastic, semi rigid construction made of proprietary laminate and elastic webbing,
- ▲ Fits most popular metal cuffs,
- ▲ Additional pocket for key,
- ▲ Mounted directly to any 45 mm belt; can be mounted or removed even with your belt on,
- ▲ Heavy duty snap button closure provide secured carrying of the cuffs, with rapid access to them when needed.

Weight: 45 g / 0.09 lbs
Product Id: PO-CFLP-CD5
Colors: CBR, AGR, UGR, SGR, BLK

MED pouch horizontal

Flat MED pouch designed to fit standard individual medical kit. Fits the back of the MOSQUITO® modular belt sleeve, features easy and quick ambidextrous access. Interior designed to hold medical first aid essentials.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D and 210D.
- ▲ Attaches either through PALS or via beltloops.
- ▲ Designed to hold individual medical first aid essentials.
- ▲ Left- or right side accessible with quick-opening handles.
- ▲ Flat design, optimized for prolonged vehicle ops.

Weight: 225 g / 0,49 lbs
Product Id: PO-MEDH-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MED pouch vertical

Narrow, vertical setup of the individual first aid pouch. This two piece IFAK is designed to fit on chest rig side panel or on a belt - taking similar PALS surface as a magazine pouch.

Specs:

- ▲ Proprietary laminate construction.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Holds carefully chosen setup of individual medical supplies.
- ▲ External pouch is adjustable with shockcord to minimize package.
- ▲ Internal Foldable medical insert is a separate element and can be layed out flat or stowed into a uniform pocket or dump pouch in emergency.

Weight: 170 g / 0,37 lbs
Product Id: PO-MEDV-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

COMBAT STRETCHER

Lightweight foldable field stretcher. Made of two layers of Nylon Micro Rip-Stop fabric to guarantee durability and light weight. Eight reinforced webbing carry handles (four to a side). Two integrated flat pockets, each the size of one half stretcher underneath the whole area of the deployed stretcher, accessible from front and rear edge. Stow pouch for folded stretcher enable mounting them onto the combat vest, belt etc. Side channels enable inserting carrying poles for easy two-man use.

Specs:

- ▲ The stretcher is made out of two layers of lightweight Nylon fabric.
- ▲ Eight reinforces carry handles (four to a side).
- ▲ Two flat large pockets integrated into the stretcher
- ▲ Light weight and compact size when folded.
- ▲ Stow pouch for the stretchers attaches either through PALS or via beltloops.

Weight: 300 g / 0,66 lbs
Product Id: PO-CSTR-NLN
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

TOURNIQUET pouches

Marked "TQ" for easy identification, this pocket is made to carry most of the currently used tourniquet models such as SOFT-T or CAT. The key idea is to protect the life-saving device Velcro® strips from dirt that can reduce its useability in a critical situation - whilst providing quick access and a more sturdy carry method than rubber bands.

Specs:

- ▲ Proprietary laminate construction.
- ▲ PALS and belt compatible, can be carried in vertical or horizontal position.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Velcro® flap secured and open top variants.

Weight: 34 g / 0,07 lbs
Product Id: PO-TNQO-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

Weight: 43 g / 0,09 lbs
Product Id: PO-TNQT-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

UNIVERSAL RADIO pouch

This radio pouch will securely hold and provide access to the currently most widely used radio models. External PALS allows additional equipment to be attached.

Specs:

- ▲ Made of proprietary laminate.
- ▲ Adjustable for depth.
- ▲ Robust closure with a STOCKO® fastener.

Weight: 57 g / 0.12 lbs
Product Id: PO-RDUN-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

NVG pouch

Foam-padded pouch for secure carrying popular NV goggles and monoculars, such as AN/PVS-18 or AN/PVS-21. Zipper closure secures the content while enabling silent access. Size allows carrying NV with mounting bracket on. The interior is lined with soft velour to minimize scratching of the optics. Internal zippered pocket to hold spare batteries, caps etc.

Specs:

- ▲ Padded 5000 Cordura® construction.
- ▲ Fits most popular NVGs, like AN/PVS-18, AN/PVS-21 etc.,
- ▲ Zipper closures provide fast and silent access.
- ▲ Velour lining prevents optics from getting scratched.
- ▲ Internal zippered pocket for spare batteries and accessories.
- ▲ Attaches either through PALS or via bellloops.

Weight: 138 g / 0.30 lbs
Product Id: PO-NVGP-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

UTILITY pouches

Multipurpose, zippered utility pouches in 5 sizes. Smaller ones will hold multitools, navigational aids, weapon cleaning kit or similar small items, while bigger can hold NVDs, lightweight jackets, or small H₂O bladder.

Specs:

- ▲ Cordura® 5000 and proprietary laminate construction.
- ▲ Sizes in PALS: Mini 2x3, Small 3x3, Medium 3x4, Large and Extra Large 4x4
- ▲ PALS slots on bottom in small, medium and larger pouches.
- ▲ Elastic bands for retention of tools inside.

CARGO pouch

Large multipurpose pouch to be worn on the rear part of the MOSQUITO® modular belt sleeve or similar belt setup. Substantial pouch capacity allows to pack all essentials, and drawstring collar secures the contents, while buckled flap keeps debris away. Modular panels sewn to the sides and bottom allow additional gear to be added. Side loops take elastic cord to reduce the empty volume.

Specs:

- ▲ Made of proprietary laminate and 5000 Cordura®.
- ▲ Attaches through PALS or directly on belt.
- ▲ Large boxy flap, side release buckle closure.
- ▲ Adjustable drawstring collar.
- ▲ Modular panels at sides and bottom.

Weight: 160 g / 0.35 lbs
Product Id: PO-CRGO-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

DUMP pouch

Classic foldable bag-type pouch for empty magazine or other items than need to be quickly stowed away. Rolls neatly into a small package and can be instantly opened with a solid tug of one hand on the long Hypalon® pull tab. Bottom is made of mesh for drainage and debris, top can be tightened with a shockcord.

Specs:

- ▲ Cordura® 500D and proprietary laminate construction
- ▲ PALS and belt compatible
- ▲ Two MALICE CLIPS® included

Weight: 82 g / 0,18 lbs
Product Id: PO-DUMP-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

MULTI HYDRO pack

Lightweight universal hydration bladder carrier. Fits most popular bladders of 2 liter capacity. Three-dimensional design allows the carrier to expand outwards, without causing discomfort to wearer. Side zipper closure allows easy access to the bladder. Outer surface is covered with PALS/MOLLE slots to allow attachment of additional pouches. Multi hydro pack can be attached in several ways (with PALS, integral straps or mounted to the MOSQUITO® H-Harness). The hydration bladder tube can be routed either left or right.

Specs:

- ▲ Made of proprietary laminate and 500D Cordura®
- ▲ Fits most popular bladders of up to 2 liter capacity.
- ▲ Own detachable carrying straps included.
- ▲ PALS/MOLLE compatible.
- ▲ Special loops to stabilize the pouch when attached to MOSQUITO H-Harness.

Weight: 256 g / 0,56 lbs
Product Id: PO-MHPK-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

DUMP pouch large

Large, roll-up dump pouch. Made of 500D Cordura® with drawstring collar to secure contents. Empty pouch rolls into compact package - when needed can be deployed by opening Velcro® flap with a hefty pull of a Hypalon® handle. Mesh bottom prevents dirt from cumulating inside.

Specs:

- ▲ Proprietary laminate, Cordura® 500D and 210D construction.
- ▲ Stiffened outside collar to support long objects, like empty rifle magazines.
- ▲ Soft inner drawstring-adjustable collar secures contents.
- ▲ Attaches either through PALS or via bellloops.

Weight: 115 g / 0,25 lbs
Product Id: PO-DMPL-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

HYDRO utility pouch

Simple, lightweight pouch designed to hold the popular water containers such as USGI 1 qt canteen or 1l Nalgene® bottle - with or without cups. Pouch is adjustable to fit over smaller containers.

Specs:

- ▲ Cordura® 500D and proprietary laminate construction.
- ▲ PALS compatible.

Weight: 94 g / 0,21 lbs
Product Id: PO-HYDR-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

SLINGS & HOLSTERS

G17 OWB KYDEX LIGHT holster

This durable pancake style holster for Glock® 17 designed to provide a more discreet and very comfortable carrying option. Every possible piece of excessive material was trimmed down - to lower the profile and make situations such as sitting in a car for a long time as comfortable as possible.

Specs:

- ▲ Thick Kydex® construction.
 - ▲ For: Glock® 17.
 - ▲ 50 mm belt loop as standard.
- Weight: 142 g / 0,30 lbs
Product Id: HP-0GLR-KDX
Colors: BLK, FDE

WALTHER P99 OWB NO LIGHT holster

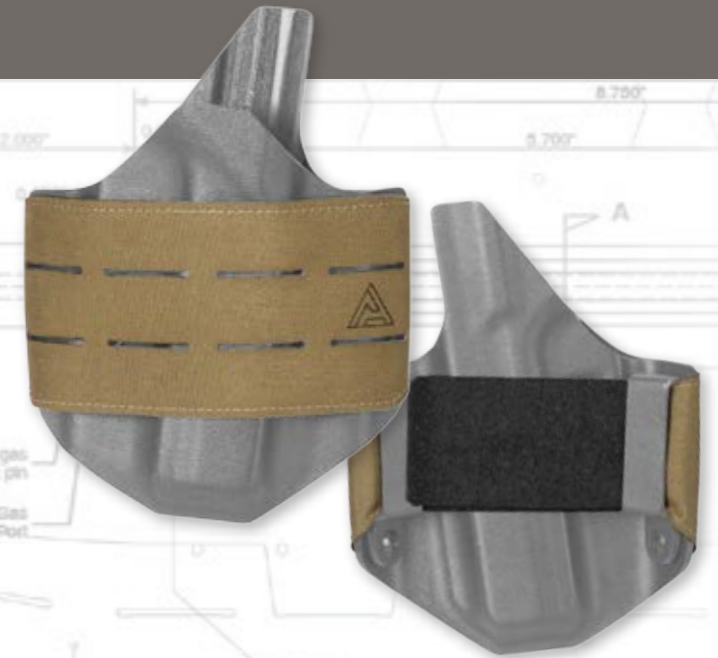

This durable pancake style holster for Walther® P99 is designed to provide a more discreet and very comfortable carrying option. Every possible piece of excessive material was trimmed down - to lower the profile and make situations such as sitting in a car for a long time as comfortable as possible. Holster is dedicated for pistols in both versions - with old type mounting rail and newer Picatinny-compatible variant.

Specs:

- ▲ For: Walther® P99,
- ▲ 50 mm belt loop as standard.

Weight: 118 g / 0,26 lbs
Product Id: HP-09SR-KDX
Colors: BLK, FDE

HOLSTER MOLLE wrap

Holster MOLLE wrap is a quick-mountable panel, dedicated for Kydex® OWB pancake-style holsters. Allows the user to attach small footprint modular pouches on the face of the holster.

Specs:

- ▲ Made of laser-cut proprietary laminate,
- ▲ Fits all DIRECT ACTION® Kydex® OWB holsters,
- ▲ Easy and quick set up.

Weight: 12 g / 0,03 lbs
Product Id: PO-HSMW-CD5
Colors: AGR, UGR, SGR, CBR, BLK, MCM, PGZ, PBL

UNIVERSAL IWB HYBRID holster

Hybrid inside waist band (IWB) holster is an ideal solution, allowing to carry weapon in full concealment, yet secured from accidental drops. Leather on the outside is soft and nice to touch, preventing edges from hurting the sides, while rigid internal structure made of Kydex® holds the weapon securely, at the same time allowing easy draw and re-holstering. Special profile of the holster allows it to fit multiple handgun models. Metal clips guarantee stabile mounting of the holster.

Specs:

- ▲ Hybrid design, made of leather and Kydex®,
- ▲ 45 mm belt metal clips for mounting the holster,
- ▲ Single holster fits most double stack autos: Glock® 17, H&K® USP/SFP, Walther® P99, Sig Sauer® P228/9, XDM etc.

Weight: 168 g / 0,37 lbs
Product Id: HP-IUSR-HYB
Colors: BLK

CARBINE MK II sling

Upgraded version of our carbine sling. It remains a lightweight, optimized for use as a 2-point, it is easily convertible to a single-point configuration. Durable, soft in touch softshell neck area prevents abrasion, even with prolonged use. New version, low failure rate buckle.

Specs:

- ▲ Durable webbing construction,
- ▲ Softshell neck area to minimize abrasion during prolonged use,
- ▲ Hypalon quick adjust puller,
- ▲ Universal, no-noise, low failure rate, adjustable paracord attachment,
- ▲ Heavy duty ITW Nexus® hardware.

Weight: 79 g / 0,17 lbs
Product Id: SL-CRB2-NLW
Colors: AGR, UGR, CBR, BLK, MCM, PGZ

BACKPACKS

HALIFAX® medium backpack

The first of the whole range of our new backpacks, the HALIFAX® medium backpack is a fully mission-configurable patrol backpack. It features a large main compartment closed with heavy duty YKK® #10 zippers. The whole interior is covered with Velcro® velour fabric that allows mounting of additional pouches. The back interior panel is also covered with laser cut MOLLE/PALS. This enables the user to easily configure this pack for a medical pack, assault pack, breacher pack or even a radio pack, supported by radio pouch anchor points and an additional zipper for cables/antenna. The top portion of the flap has two additional pockets, with one of them lined with velour. The whole outer layer of the pack is covered with laser cut MOLLE/PALS. Heavy duty, profiled shoulder straps are designed to comfortably redistribute the weight of the carried gear. Additional anchor points on bottom and sides, along with reinforced construction of the whole pack make it "jumpable" for airborne operations. With zippers on front, the same as on the rear panel of SPITFIRE®, it allows mounting any of our back panels, like ASSAULT or BREACHER panel, making the HALIFAX® even more scalable and easily configurable.

Specs:

- ▲ Made of proprietary laminate, Cordura® 500D and 210D nylon fabric,
- ▲ Laser cut MOLLE/PALS on front and sides,
- ▲ Zippers compatible with SPITFIRE® additional back panels,
- ▲ Interior covered with Velcro® velour; back panel also covered with laser cut MOLLE/PALS system,
- ▲ Internal anchor points for radio pouch, additional zipper for cables/antenna,
- ▲ Inner compartment for hydration bladder; internal mesh pocket on the flap,
- ▲ Two outer pockets, one of them lined with velour,
- ▲ Two small pockets on sides,
- ▲ Profiled, heavy duty shoulder straps,
- ▲ Anatomically profiled back,
- ▲ Clamshell type flat opening of the pack,
- ▲ Jumpable thanks to outer anchor points and reinforcements at key points.

Weight: 1780 g / 3.92 lbs
Product Id: BP-HFXM-CD5
Colors: MCM, PGZ, PBL, CBR, AGR, UGR, SGR, BLK

DRAGONFLY® low profile gun pack

During undercover operations there is always one problem - sometimes you need some extra firepower and a pistol is just not enough. Taking your long gun can also be very difficult when you don't want to attract too much attention. This is the moment where our DRAGONFLY® gun pack steps in. From the outside it looks like just another civilian backpack. When you unzip it, you have immediate access to your main gun. Its basic form fits a stripped down 10.5" barrel AR, MP5 with collapsible stock, UMP or other similar platforms. But don't worry - we can make it fit any other gun. The interior is covered with Velcro® velour fabric to allow you carry additional mags in included elastic pouches. The low profile shoulder straps can be hidden, transforming it into a soft, handle carried briefcase, imitating any large laptop case, without drawing attention.

Specs:

- ▲ Custom made to imitate a civilian looking pack,
- ▲ Standard size will fit MP5, UMP or stripped down 10.5" barrel AR,
- ▲ Interior lined with Velcro® velour for additional personalization,
- ▲ Velcro® mountable mag pouches included,
- ▲ Low profile shoulder straps can be hidden transforming the pack into a handle-carried briefcase or laptop bag,
- ▲ Can be made to fit other types of guns,
- ▲ Available only for Mil/LE purchase - contact us for more details.

Weight: 1020 g / 2.25 lbs
Product Id: BP-DGFL-CD5
Colors: UGR, SGR, BLK

APPAREL

T-SHIRT PIN-UP® Girl

If you like guns, girls and tactical gear - this T-Shirt is perfect for you. This 100% cotton tee was marked with one of our PIN-UP girl inspired designs showing that a nice girl looks even nicer with our gear and an AR-15. BEANIE CAP FR

Cap for under the helmet or standalone use. Also good for running or just chilling.

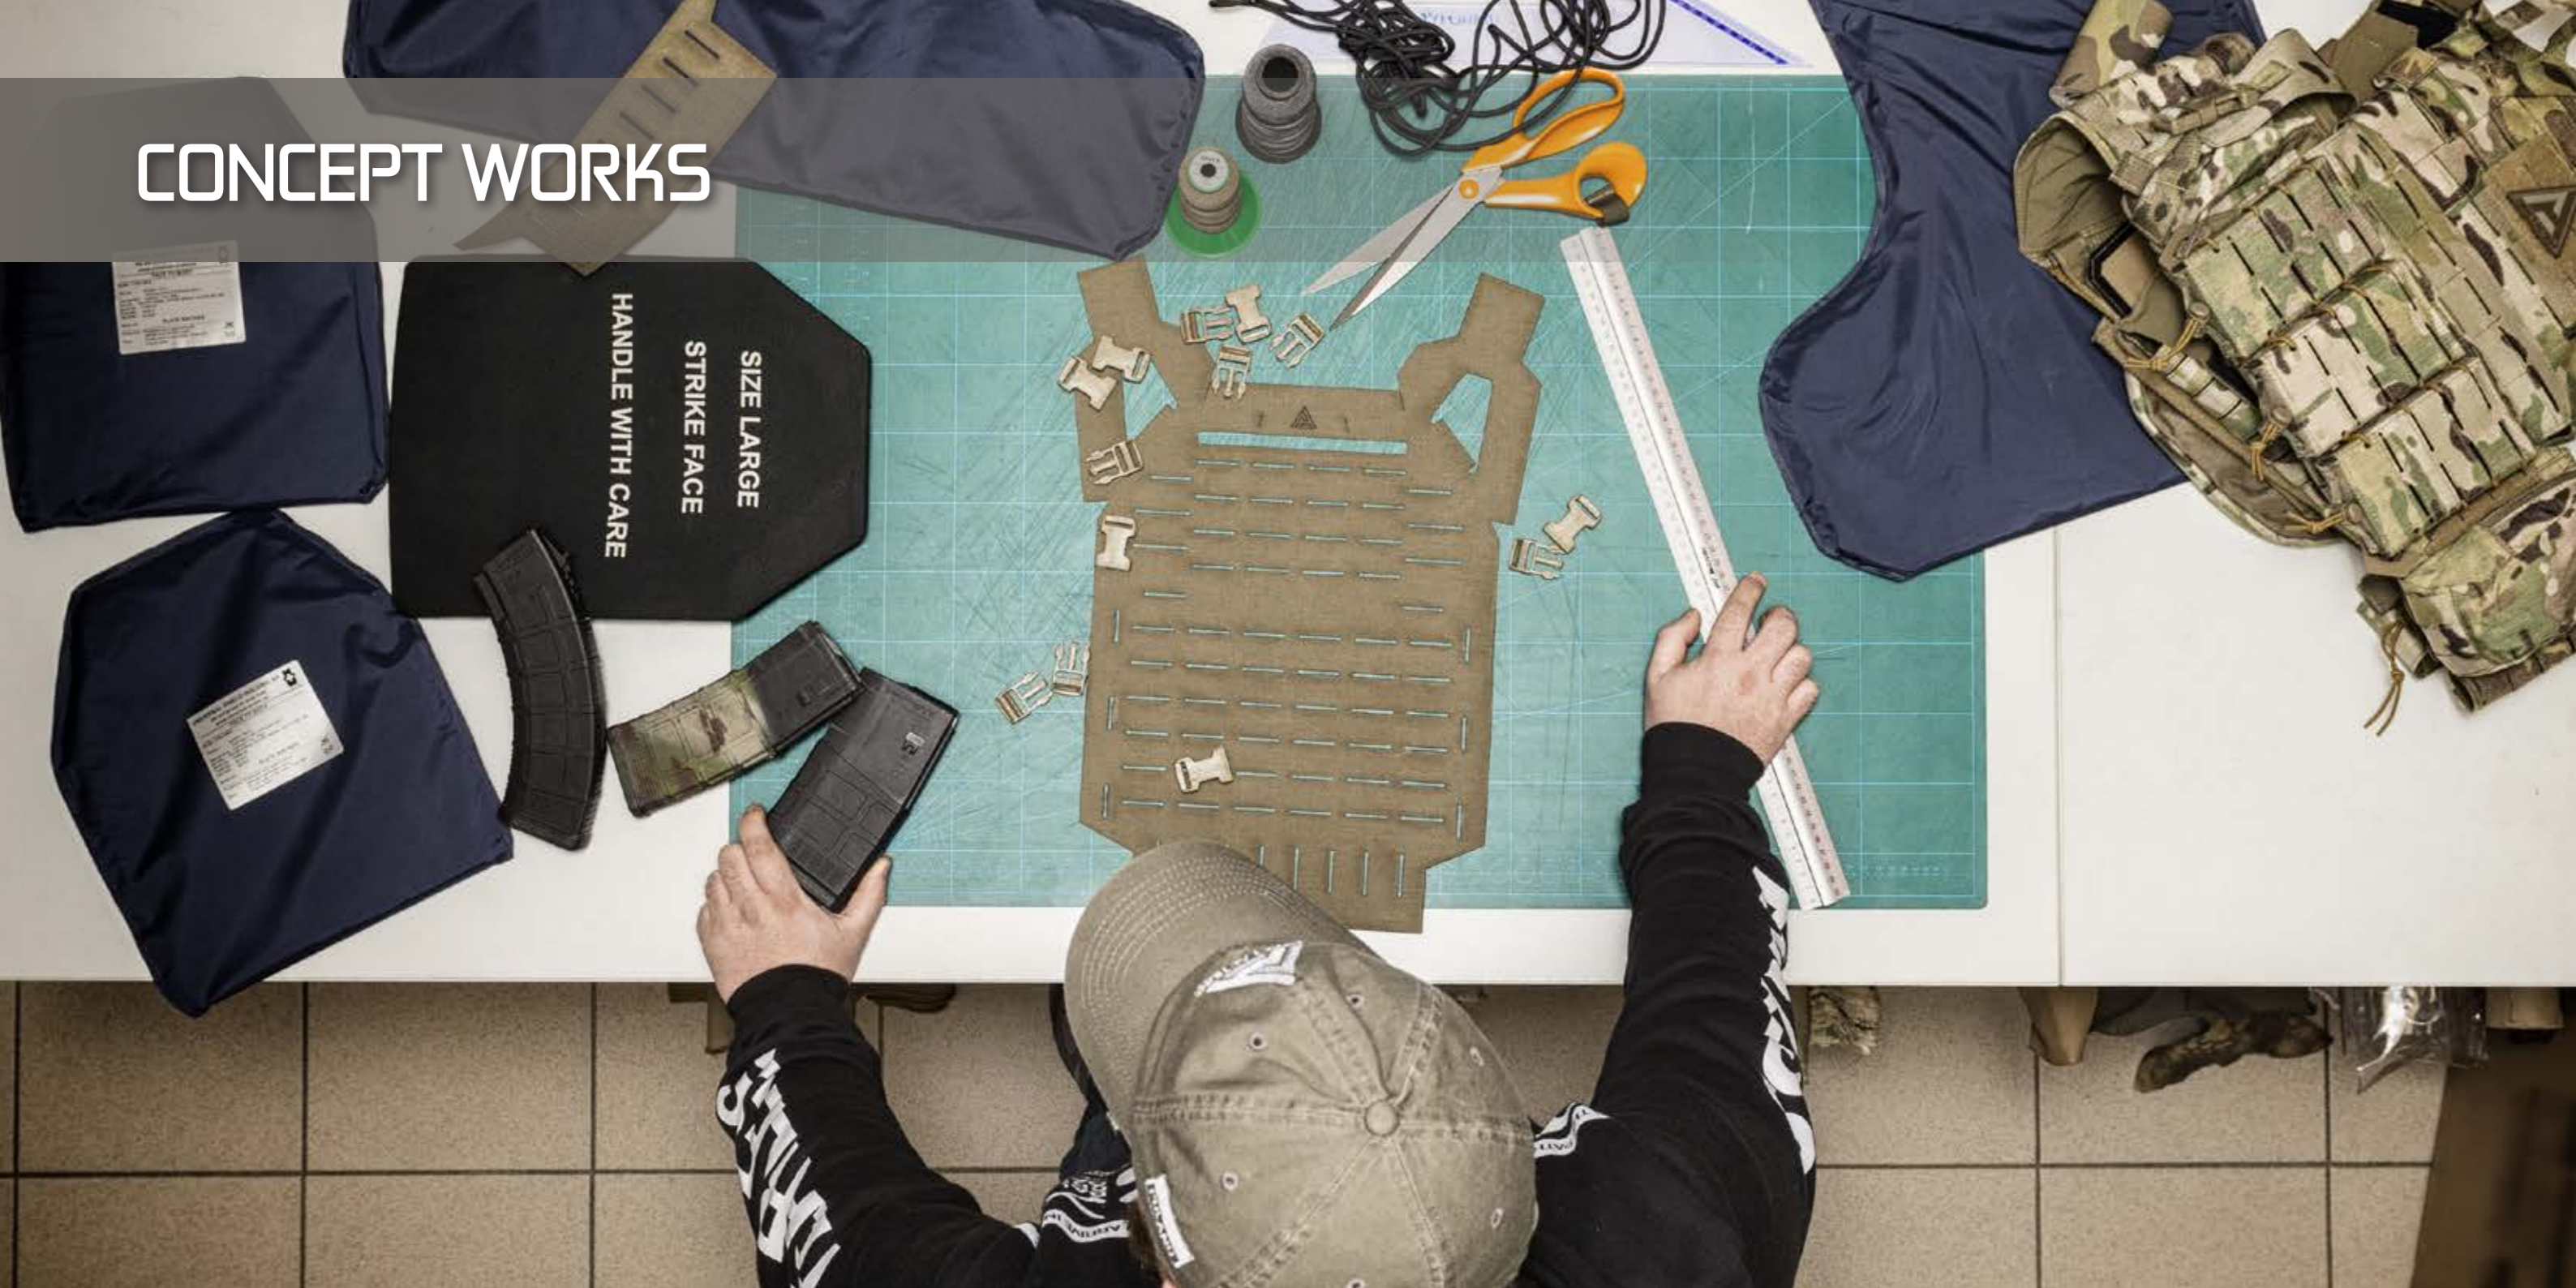

Specs:

- ▲ Breathable & lightweight stretch fabric,
- ▲ Flame Retardant (no melt, no drip),
- ▲ Flat seams,
- ▲ One size fits most.

Weight: 26 g / 0.06 lbs
Product Id: CP-BNFR-CDR
Colors: LTC, AMG

CONCEPT WORKS

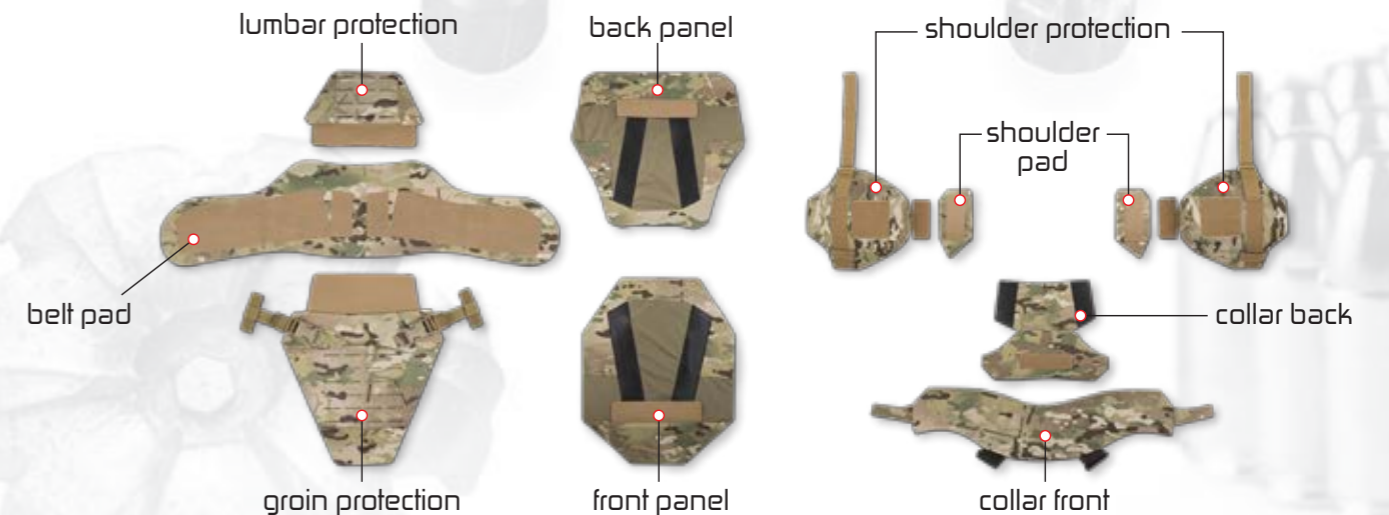

SPITFIRE® Peripheral ballistic set

As mentioned many times before, the SPITFIRE® plate carrier is one of the most scalable constructed carriers available on the market today. It can not only be fully configured to the mission with additional flaps, wings or back panels. It can also be easily transformed from a plate carrier to full size vest combining not only hard, but also soft ballistic inserts. We have designed our own soft ballistic kit for our SPITFIRE® that not only works best with its shape, but also give you full coverage. The whole system includes not only front, back and side panels, but also collar, and arm protection, two sizes of front belly/groin protection or even an additional lumbar panel. It also features an additional panel for our MOSQUITO® belt sleeve. More importantly, we are able to make soft panel covers for any type of soft ballistic protection and make it compatible with the SPITFIRE®, including even panels as large as US BALCS soft ballistic inserts. Contact us for more information.

Specs:

- ▲ Made from proprietary laminate, Cordura® 500D and 210D nylon fabric.
- ▲ Soft panel designed to provide maximum cover without restricting freedom of movement.
- ▲ Panels design to fit perfectly to both SPITFIRE® plate carrier and MOSQUITO® belt sleeve.
- ▲ Fully scalable - you can use only needed panels, without the need of using the whole system.
- ▲ Whole kit compatible with SPITFIRE® QR system.
- ▲ Available also for popular US BALCS soft ballistic panels.
- ▲ Can be custom made for any provided panels.
- ▲ Ballistic panels not included.
- ▲ Contact us for more details about the availability and possibilities of making custom kits.

LIFESTYLE

WIDE MOUTH Nalgene® water bottle

If you're looking for a water bottle that will keep you well hydrated, hold up against bangs, bumps and drops and not leak, check out Nalgene's most popular bottle customized with our DIRECT ACTION® logo.

2018
NEW!
GEAR

DRAGON EGG® MK II backpack

Dragon Egg® is a versatile 25+ liter platform suitable for the role of a basic assault backpack or larger EDC pack.

It features three zippered compartments - main has an internal hydration sleeve and an accessory mesh pocket. Smaller compartment has an internal organizer for notepads, GPS, writing utensils and other essentials, plus a zippered mesh pocket for small items. Third compartment is a reinforced, padded space to securely carry your laptop computer - has a separate access from the back panel side of the pack.

Externally, there are 2 side pockets that can be stretched to fit water bottles, plus a zippered, soft velour lined, glasses pocket in the upper portion of the pack. Daisy chain webbing runs along the front panel seam for attaching any carabiners or similar gear to the pack outside.

Carrying straps of the Dragon Egg® backpack are well padded for comfort and feature side release buckles for quick doffing. Waistbelt is detachable and can be stowed away.

Specs:

- ▲ Cordura 5000 laminate construction
- ▲ Laser cut PALS/MOLLE on front and sides
- ▲ Daisy chain webbing for extra gear/carabiners attachment
- ▲ Hydration bladder compatible
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Padded computer sleeve with separate access
- ▲ Woven 550 cord carrying handle
- ▲ Ventilated back panel - Combat Vent System®
- ▲ Velcro® ID panel

Weight: 1620 g / 3,49 lbs
 Capacity: 25 liters / 1526 cu in
 Size: 48 x 27 x 18 cm / 19 x 10.6 x 7 in
 Product Id: BP-DEGG-CD5
 Colors: AGC, AGR, BLK, CBA, CBR, MCM, OGR, PBL, PSD, PSS,
 SGR, UGC, UGR, UGS

GHOST® MK II backpack

Ghost® is a 30+ liter backpack, scalable and well suited for the role of tactical 3-day pack.

It features main pack with two zippered compartments - first, larger, has an internal hydration sleeve and an accessory mesh pocket. Second, accessible from the back side of the pack is reinforced and will hold a large laptop computer.

Third pocket of the Ghost® platform is a detachable organizer pocket, completely separable from the main pack body. Normally, it is attached to the main pack via 4 buckles and adjustable shockcord, but it may be used completely on its own (it has its own carrying handle) for medical supplies etc. Internally this outer pocket has a lot of internal slots and pockets for gear organization, plus when attached to the Ghost® main pack it forms a beavertail-type flap, where you can pack additional clothing or lighter gear.

Externally, there are 4 pockets - two side pockets that may be stretched to fit water bottles. Additionally, there is a zippered, soft velour lined, glasses pocket in the upper portion of the pack and a flat zippered pocket below it.

Carrying straps of the Ghost® backpack are wide, and padded with stiffened closed cell foam, with side release buckles for quick doffing. Waistbelt of the Ghost® pack is a fully functional PALS/MOLLE belt that can be detached from the main body and used on its own with included low-profile suspenders.

Specs:

- ▲ Cordura 500D laminate construction,
- ▲ Laser cut PALS/MOLLE on front and sides,
- ▲ Detachable organizer pocket - optionally standalone (as med kit e.g.),
- ▲ Detachable PALS/MOLLE waistbelt with additional suspenders,
- ▲ Hydration bladder compatible,
- ▲ Heavy duty YKK® zippers, Duraflex® hardware,
- ▲ Padded computer sleeve with separate access,
- ▲ Ventilated back panel - Combat Vent System®,
- ▲ Velcro® ID panel.

DUST® MK II backpack

Dust® is a small 20+ liters backpack oriented towards use as EDC/one day pack platform.

It features two zippered compartments - main has an internal, padded laptop / hydration sleeve and an accessory mesh pocket. Smaller compartment has an internal organizer for notepads, GPS, writing utensils and other essentials, plus a clear vinyl pocket for maps and documents.

Externally there are 3 flat pockets - two on the sides can be stretched to fit water bottles. Side accessible flat pocket on the front surface is a good place to keep smaller items that need to be easily accessible without opening packs compartments.

Carrying straps and waistbelt of the Dust® backpack are adjustable and can be stowed away in the back panel, turning this pack into a slim, no-snap hand luggage.

Specs:

- ▲ Cordura 500D laminate construction
- ▲ Laser cut PALS/MOLLE on front and sides
- ▲ Hydration bladder compatible
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Padded computer sleeve
- ▲ Woven 550 cord carrying handle
- ▲ Ventilated back panel - Combat Vent System®
- ▲ Velcro® ID panel

Weight: 1210 g / 2.66 lbs
Capacity: 20 liters / 1220 cu in
Size: 42 x 26 x 14 cm / 16.5 x 10 x 5.5 in

Weight: 2300 g / 5.07 lbs
Capacity: 28 + 3.5 liters / 1708 + 213 cu in
Size: 52 x 30 x 18 cm / 20.4 x 12 x 7 in
Product Id: BP-GHST-CD5
Colors: AGR, BLK, CBR, MCM, OGR, PSD, PSS, SGR, UGR

Weight: 1390 g / 49 oz
 Size: 35 x 26 x 13 cm / 14 x 10 x 5 in
 Product Id: BG-MSGM-CD5
 Colors: BLK, CBR, SGR

Medium sized messenger bag is a perfect platform for visit to the range or just daily activities. Its main compartment has a padded slot for smaller laptop or iPad type device plus its completely Velcro® lined for user customization. Externally there are two zippered organizer pockets with slots for smaller electronics/tools/writing essentials. On sides there are open-top small water bottle pocket) and zippered one, that will fit a shot timer perfectly.

Bag is closed with a large flap, alternatively fastened with buckles or Velcro®. On the inner side of the flap, there is a clear vinyl pocket and on the outside - a flat zippered one. Bottom of this messenger model bag is reinforced with non-slip material, plus there's an elastic cord weave if you consider carrying some clothing on the outside of the bag. Its body side has a flat, zippered pocket that can stow detachable shoulder and waist straps if you decide to carry your bag by its carrying handle alone.

Additional PALS/MOLLE mounting surface on the outside of the bag provide space for attaching accessory and magazine pouches under/over the bag's flap or on the side pocket surface.

Specs:

- ▲ Cordura 500D laminate construction
- ▲ Laser cut PALS/MOLLE on flap, body and sides
- ▲ Velcro® interior for user-customizable configuration
- ▲ Detachable shoulder strap with non-slip pad and stabilizing waist strap
- ▲ Padded laptop sleeve
- ▲ Reinforced bottom
- ▲ Elastic cord for packing clothing etc.
- ▲ Buckle/Velcro® secured flap
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Velcro® ID panel

Stand out from the crowd with our PVC patches. No matter if you want to show your nationality with one of our Polish or US flags, or show support to DA with triangle Logo patch or our famous GO LOUD! motto - we've got you covered. Available in true color or subdued grayish scale.

Specs:

- ▲ Made of high quality PVC.
- ▲ Mil-Spec flag sizes.
- ▲ Backed with hook velcro.
- ▲ Available in full color or subdued.
